Independent Auditors' Report

Board of Directors High Plains Metropolitan District Arapahoe County, Colorado

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of High Plains Metropolitan District (the "District") as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of High Plains Metropolitan District as of December 31, 2019, and the respective changes in financial position and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's financial statements as a whole. The supplementary information as listed in the table of contents is presented for the purposes of legal compliance and additional analysis and is not a required part of the financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The continuing disclosure annual information, as listed in the table of contents, has not been subject to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

HIGH PLAINS METROPOLITAN DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED DECEMBER 31, 2019

Net Change in Fund Balances - Total Governmental Funds	\$	710,820
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. In the statement of activities, capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful life of the asset. Park Improvements Monumentation Entryways		371,811 65,132 31,131
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Bond Principal Payment Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Change in Accrued Developer Advance Interest Payable	(35,000

NOTE 1 DEFINITION OF REPORTING ENTITY

High Plains Metropolitan District, a quasi-municipal corporation, and political subdivision of the State of Colorado was organized on November 27, 2002 concurrently with Beacon Point Metropolitan District (Beacon Point) and East Plains Metropolitan District (East Plains), and is governed pursuant to provisions of the Colorado Special District Act. The District is located entirely within the City of Aurora (City), County of Arapahoe, Colorado. On March 10, 2006, an Amended and Restated Consolidated Service Plan for the District, East Plains, and Beacon Point was approved. The District was established to provide for the design, construction, installation, financing, and acquisition of certain street, traffic, and safety controls, water, sanitation, park and recreation improvements and mosquito control.

On April 5, 2010, the District, along with Beacon Point and East Plains, adopted Resolution No. 2010-04-01, Joint Resolution of East Plains, High Plains and Beacon Point Acknowledging and Authorizing the Dissolution of East Plains (Resolution). Pursuant to the Resolution, East Plains, High Plains and Beacon Point acknowledged that the purposes for which East Plains was organized have been satisfied and in order to simplify and increase efficiency in provision of improvements and services to High Plains and Beacon Point, it is in the best interests of East Plains, High Plains and Beacon Point, and their respective constituents, for East Plains to seek dissolution and transfer its rights and obligations with respect to the provision of improvements and services to High Plains and Beacon Point, as appropriate. The Resolution authorized East Plains to take the necessary actions to implement the dissolution.

In anticipation of the dissolution, on April 14, 2010, the District entered into two agreements with MS Rialto Blackstone CO, LLC ("MS Rialto") and one agreement with Lennar Colorado, LLC (the "Developer") whereby the District accepted the reimbursement obligations previously held by East Plains with respect to advances made by MS Rialto and/or the Developer for the benefit of the District.

On July 26, 2010, in anticipation of the dissolution of East Plains, a Second Amended and Restated Service Plan (SARSP) for the District was approved by the City, segregating the rights and responsibilities of the Districts. On November 23, 2010 East Plains Metropolitan District was dissolved and all assets or liabilities of East Plains relating to the District were transferred to the District. As a result of the dissolution, the District is responsible for providing the day-to-day operations and administrative management and for constructing, owning, transferring, operating, and maintaining certain public facilities and services for the benefit of the District and for providing funding for the same.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization is governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

NOTE 1 DEFINITION OF REPORTING ENTITY (CONTINUED)

The District has no employees and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred outflows and the sum of liabilities and deferred inflows is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

<u>Measurement Focus, Basis of Accounting and Financial Statement Presentation</u> (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes, specific ownership taxes, and operations fees. All other revenue items are considered to be measurable and available only when cash is received by the District. The District determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations are recorded when the liability is incurred or the long-term obligation is due.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term debt of the governmental funds.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital equipment and facilities.

The Capital Projects - Regional Improvements Fund is used to account for financial resources to be used for a regional improvement or to be remitted to the South Aurora Regional Improvement Authority or to the City.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at yearend. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

The District amended its budget during the year ended December 31, 2019.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pooled Cash and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank or investment account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Interfund Balances

The District reports interfund balances that are representative of lending/borrowing arrangements between funds in the fund financial statements as due to/from other funds (current portion of interfund loans) or advances to/from other funds (long-term portion of interfund loans). The interfund balances have been eliminated in the government-wide statements except for the residual balances between the governmental activities and business-type activities, which are reported as internal balances.

Noncurrent portions of long-term interfund loans receivable (reported in "Advance from" asset accounts in the fund financial statements) are equally offset by a nonspendable account which indicates that they do not constitute "available spendable resources" since they are not a component of net current assets. Current portions of long-term interfund loans receivable and other miscellaneous interfund receivables (reported in "Due from" asset accounts) are considered "available spendable resources."

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioner to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or, at the taxpayer's election, in equal installments in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

Capital Assets

Capital assets, which include infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

Capital assets which are anticipated to be conveyed to other governmental entities are recorded as construction in progress and are not included in the calculation of net investment in capital assets.

Amortization

Original Issue Discount/Premium

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, deferred property tax revenue, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

<u>Equity</u>

Net Position

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity (Continued)

Fund Balance (Continued)

Restricted Fund Balance – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

Assigned Fund Balance – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned Fund Balance – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's practice to use the most restrictive classification first.

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of December 31, 2019, are classified in the accompanying financial statements as follows:

Statement of Net Position:	
Cash and Investments	\$ 1,220,327
Cash and Investments - Restricted	 3,864,677
Total Cash and Investments	\$ 5,085,004

Cash and investments as of December 31, 2019, consist of the following:

Deposits with Financial Institutions	\$ 62,922
Investments	 5,022,082
Total Cash and Investments	\$ 5,085,004

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2019, the District's cash deposits had a bank balance and a carrying balance of \$62,922.

Investments

The District has not adopted a formal investment policy; however, the District follows the state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Revenue bonds of local government securities, corporate and bank securities, and guaranteed investment contracts not purchased with bond proceeds, are limited to maturities of three years or less.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States, certain U.S. government agency securities, and securities of the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Certain certificates of participation
- . Certain securities lending agreements
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- * Local government investment pools

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments (Continued)

As of December 31, 2019, the District had the following investments:

Investment	Maturity	 Amount
Colorado Local Government Liquid	Weighted average	
Asset Trust (COLOTRUST)	under 60 days	\$ 5,022,082

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and any security allowed under CRS 24-75-601. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAm by Standard & Poor's. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST at net asset value method as determined by the fair value method. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

NOTE 4 CAPITAL ASSETS

An analysis of the changes in capital assets for the year ended December 31, 2019, follows:

	Balance at December 31, 2018	Increases	Decreases	Balance at December 31, 2019

Long Term Obligations - Total	\$ 59,623,479	\$ 1,171,282	\$ 89,972	\$ 60,704,789	\$ 229,904

The details of the District's long-term obligations are as follows:

General Obligation Bonds

\$27,415,000 General Obligation Refunding Bonds, Series 2017, dated June 6, 2017 with interest at rates ranging from 2.375% to 5.000%, payable semi-annually on June 1 and December 1, beginning on December 1, 2017. Annual mandatory sinking fund principal payments are due on December 1, beginning on December 1, 2017. The Series 2017 Bonds mature on December 1, 2047. The Series 2017 Bonds are subject to optional and mandatory sinking fund redemption prior to maturity.

The proceeds from the sale of the 2017 Bonds were used to (i) refund the District's outstanding Limited Tax (Convertible to Unlimited Tax) General Obligation Bonds, Series 2005A, (ii) fund an initial deposit of \$1,000,000 to the Surplus Account, and (iii) pay certain costs of issuance of the Bonds.

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

General Obligation Bonds (Continued)

The Bonds are secured by and payable from the Pledged Revenue consisting of monies derived by the District from the following sources, net of any collection costs: (1) the Required Mill Levy. (2) the portion of the Specific Ownership Tax which is collected as a result of the imposition of the Required Mill Levy, and (3) any other legally available monies which the District determines to be treated as Pledged Revenue. The Bonds are also secured by amounts held by the Trustee in the Reserve Fund(s). Required Mill Levy means, so long as the Surplus Account is less than the Maximum Surplus Amount, an ad valorem mill levy imposed upon all taxable property of the District each year in an amount sufficient to pay the principal, premium if any, and interest on the Bonds as the same become due and payable and to make up any deficiencies in the Reserve Fund. The maximum Required Mill Levy is 40.000 mills, adjusted for changes in the ratio of actual value to assessed value of property within the District. As of December 31, 2019, the District had funded the Surplus Account to the Maximum Surplus Amount, removing the requirement for a minimum mill levy. For collection year 2019, the District levied 35.000 mills. The Series 2017 Bonds are additionally secured by a Bond Insurance Policy issued by National Public Finance Guarantee Corp, rated A by Standard & Poor's.

On May 15, 2017, the First Amendment to the Second Amended and Restated Service Plan was approved by the City, authorizing the District to issue one or more series of unlimited mill levy Bonds, or other Debt or obligations which are not subject to the Maximum Debt Mill Levy.

The District's long-term oblig	ations will mature as follows:
--------------------------------	--------------------------------

Year Ending December 31,	Principal	Interest	Total
2020	\$ 175,000	\$ 1,121,925	\$ 1,296,925
2021	300,000	1,114,925	1,414,925
2022	420,000	1,102,925	1,522,925
2023	450,000	1,086,125	1,536,125
2024	500,000	1,068,125	1,568,125
2025-2029	3,020,000	5,014,225	8,034,225
2030-2034	4,175,000	4,282,150	8,457,150
2035-2039	5,615,000	3,254,100	8,869,100
2040-2044	7,350,000	1,987,200	9,337,200
2045-2047	5,375,000	437,200	5,812,200
Total	\$ 27,380,000	\$ 20,468,900	\$ 47,848,900

Debt Authorization

As of December 31, 2019, the District had remaining voted debt authorization of approximately \$1,981,510,000. Per the District's SARSP, the District cannot issue debt in excess of \$100,000,000.

In the future, the District may issue a portion or all of the remaining authorized but unissued general obligation debt for purposes of providing public improvements to support development as it occurs within the District's service area.

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

Funding and Reimbursement Agreements

In anticipation of the dissolution of East Plains, on April 14, 2010, the District entered into two agreements with MS Rialto and one agreement with the Developer whereby the District accepted the reimbursement obligations previously held by East Plains with respect to advances made by MS Rialto and/or the Developer for the benefit of the District. The agreements included:

- (1) An Operation Funding and Reimbursement Agreement (OFRA) with MS Rialto, whereby the District agreed to reimburse MS Rialto for operations and maintenance advances previously made to East Plains for the benefit of the District, in the amount of \$243,324 (including interest accrual to date of OFRA), along with additional interest to accrue at 7% per annum, expiring on December 31, 2044. Pursuant to the OFRA, MS Rialto also agreed to provide funding for operations and maintenance expenses of the District as needed for 2010 up to \$25,000. Reimbursement under the OFRA is from legally available revenues of the District after payments of debt service and operations and maintenance expenses and is subject to annual appropriation. On November 29, 2010, the District entered into a First Amendment to the OFRA increasing the Anticipated Shortfall Amount to \$82,481 and extending the terms of the OFRA to include advances necessary for 2011. As of December 31, 2019, \$414,611 in principal and \$289,636 in interest was outstanding.
- (2) A Capital Funding, Reimbursement and Acquisition Agreement (CFRAA) with MS Rialto, whereby the District agreed to reimburse MS Rialto for capital advances previously made to East Plains for the benefit of the District, in the amount of \$829,639 (inclusive of principal and interest amounts to the date of the CRRAA), along with additional interest to accrue at 7% per annum expiring on December 31, 2044. Pursuant to the CFRAA, MS Rialto also agreed to provide funding for certain construction related expenses of the District as needed in 2010 in the amount of \$65,000 and the District agreed to acquire District improvements from MS Rialto in the event funding becomes available. Reimbursement under the CFRAA is subject to annual appropriation and will only be available to the extent and if the District issues bonds in an amount sufficient to pay for all or part of the reimbursement or acquisition amounts. As of December 31, 2019, \$787,397 in principal and \$613,408 in interest was outstanding.
- (3) A Capital Reimbursement Agreement (CRA) with the Developer, whereby the District agreed to reimburse the Developer for capital advances previously made to East Plains for the benefit of the District, in the amount of \$19,452,810 (inclusive of principal and interest to the date of the CRA and net of any prior reimbursements) along with additional interest to accrue at 7% per annum expiring on December 31, 2044. Reimbursement under the CRA is subject to annual appropriation and will only be available to the extent and if the District issues bonds in an amount sufficient to pay for all or part of the reimbursement or acquisition amounts. Additionally, reimbursement under the CRA has priority over reimbursement under the CFRAA. As of December 31, 2019, \$15,530,600 in principal and \$14,687,450 in interest was outstanding.

NOTE 6 NET POSITION

The District has net position consisting of three components – net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. As of December 31, 2019, the District had net investments in capital assets calculated as follows:

Net Investment in Capital Assets	
Capital Assets, Net	\$ 10,491,972
Bond Premium (Net of Accumulated Amortization)	(350,390)
Bonds Payable	 (9,577,524)
Net Investment in Capital Assets	\$ 564,058

Restricted assets include net position that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation, the District had restricted net position as of December 31, 2019, as follows:

Restricted Net Position	
Emergencies	\$ 52,600
Debt Service	 437,703
Total Restricted Net Position	\$ 490,303

The District has a deficit in unrestricted net position. The deficit was a result of the District being responsible for the repayment of bonds issued for public improvements which were conveyed to other governmental entities and which costs were removed from the District's financial records.

NOTE 7 RELATED PARTIES

Lennar Colorado, LLC is the Colorado manager for MS Rialto Blackstone CO, LLC (Developer), and has an interest in undeveloped land within the District.

NOTE 8 INTERGOVERNMENTAL AGREEMENTS

On November 3, 2004, the District, along with East Plains and Beacon Point entered into an Amended and Restated Intergovernmental Agreement with the City of Aurora as amended September 26, 2008 by First Amendment (Service Plan IGA), as required by the Amended and Restated Consolidated Service Plan. On July 26, 2010, the District entered into a Second Amended and Restated Intergovernmental Agreement (SARIGA) concurrent with the approval of the SARSP. On May 15, 2017 the District entered into a First Amendment to the Second Amended and Restated Intergovernmental Agreement (FASARIGA). Under the SARIGA, the District must obtain the approval of the Aurora City Council prior to any inclusion of property outside of the service area into the boundaries of the District, or any consolidation with any other special District. Prior to the issuance of any privately placed debt, the District shall obtain a certificate from an External Financial Advisor certifying to the reasonableness of the interest rate and the structure. Pursuant to the SARIGA and the SARSP, the District is required to levy a regional mill levy and to remit it to an Aurora Regional Improvement (ARI) Authority or to the City under certain circumstances. Under the FASARIGA, the District is authorized to issue one or more series of unlimited mill levy Bond or other Debt or obligations which are not subject to the Maximum Debt Mill Levy for the purpose of refunding or refinancing the Debt outstanding at the date of the agreement.

The SARSP requires the District to dedicate certain public improvements to the City of Aurora or other appropriate jurisdiction or owners association for ownership and maintenance. The District is not authorized to operate or maintain any part of the improvements, other than park and recreation improvements, drainage improvements including detention and retention ponds, trickle channels and all necessary or proper equipment or appurtenances thereto, unless the provision of such operation and maintenance is pursuant to an intergovernmental agreement with the City.

On July 10, 2017, the District entered into the South Aurora Regional Improvement Authority Establishment Agreement (SARIA), concurrently with Beacon Point, Forest Trace Metropolitan District No. 1, Forest Trace Metropolitan District No. 2, Forest Trace Metropolitan District No. 3, Sorrell Ranch Metropolitan District, Southlands Metropolitan District No. 2, Wheatlands Metropolitan District, Kings Point South Metropolitan District No. 1, Kings Point South Metropolitan District No. 2, Kings Point Metropolitan District No. 1, Whispering Pines Metropolitan District No. 1, Inspiration Metropolitan District, and Pronghorn Valley Metropolitan District (together, the "SARIA Districts".) Upon execution of the agreement, the South Aurora Regional Improvement Authority (the Authority) was established for the purpose of planning, constructing, installing and financing the Regional Improvements designated in ARI Master Plans. On October 2, 2018, the District, along with the SARIA Districts entered into the First Amendment to the South Aurora Regional Improvement Authority Establishment Agreement (the "FASARIAEA"). Under the terms of the FASARIAEA, the District and SARIA District covenant to impose an ARI Mill Levy as set forth in such District's service plan, and to remit all proceeds of such District's ARI Mill Levy (net of County treasurer collection costs and excluding any specific ownership taxes received by the District as a result of its imposition of the ARI Mill Levy) to the Authority within 30 days of receipt by such District.

NOTE 8 INTERGOVERNMENTAL AGREEMENTS (CONTINUED)

On December 8, 2017 the Parties to the SARIA IGA approved the South Aurora approved the SARIA ARI Master Plan No. 1 (ARI Master Plan No. 1). On June 15, 2018, the Parties to the SARIA IGA approved the SARIA ARI Master Plan No. 2 (ARI Master Plan No. 2) which supersedes ARI Master Plan No. 1. ARI Master Plan No. 2 prioritizes regional improvement projects within the Authority.

NOTE 9 INTERFUND AND OPERATING TRANSFERS

The transfer from the General Fund to the Capital Projects Fund was to fund capital projects.

The transfer from the Capital Projects – Regional Improvement Fund to the Capital Projects Fund was to fund regional improvements.

The transfer from the Capital Projects – Regional Improvement Fund to the General Fund was to transfer revenue not pledged to regional improvements to the General Fund.

NOTE 10 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property and public officials' liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 11 TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

NOTE 11 TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 5, 2002, the District voters passed an election question to increase property taxes \$1,000,000 annually to pay the District's operations, maintenance, and other expenses. On November 4, 2004, the District voters passed an election question to increase property taxes \$625,000 annually to pay the District's operations, maintenance, and other expenses. Additionally, the District voters authorized the District to collect, retain, and spend all revenue without regard to any limitations under TABOR.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.
